Cityspace delivers high speed wireless broadband at St Pancras International

A Cityspace Wireless project

In June this year, Cityspace was awarded the contract by

NEW PRODUCT UPDATE

Introducing... the Smart Screen

Cityspace is pleased to announce the arrival of the Smart Screen, a state-of-the-art real-time information display screen developed to meet the needs of operators and authorities across rail, bus, coach and private transport.

The Smart Screen presents a new genre of real-time information display with a TV-style screen for broadcasting news of delays and disruptions, promotional messages, local info and live CCTV footage. Crucially, it's robust and highly flexible in terms of easy, multi-environment deployment.
